

SWINGMASTER NEWS LETTER

Lead Story Headline—Introducing a New Model

Swingmaster is proud to introduce our New 2009 Swingmaster—Model SL-180-12. Some of the highlights are: 12,000 pound lift capacity. 2-4 man tilt crew cab. 175 HP engine with heavy duty 6 speed transmission and electric shift. Heavy duty ribbed railroad axles with dual caliper disc brakes. Automatic lockout cylinders for over the side lifting.

Special points of interest:

- Welcome to the first ever Swingmaster Newsletter. We will be introducing a new Model for 2009. Should you have questions please contact us at any time.

Swingmaster does not just build hydraulic cranes—oh no—we have a large capacity CNC Machining Department. Do you need plate burning/cutting/fabrication? We have a department that can handle those needs. We have large horizontal boring mill—do you need our help with anything in those departments? Swingmaster will assist you with any of your needs.
